

Call for action: 17 Goals for a better World

In 2015 all 193 members of the United Nations signed the Agenda 2030, a global partnership for sustainable development for people and the planet. At its core are the 17 Sustainable Development Goals (SDGs), which present an urgent call for action. They incorporate the three dimensions of sustainable development: the economic, social and environmental. These strategies for maintaining peace and prosperity are not only concerned with combating climate change effectively but they also deal with reducing inequalities and improving health as well as educational conditions. Countries, organisations and companies - each and every one of us is supposed to participate in the initiative!

WasserCluster – towards a more sustainable future

The United Nation's call for action has motivated us to intensify our efforts for sustainable development. Our vision is realized through a six step, cyclic plan that is highly focused on an ongoing internal communicative process. We, at the WasserCluster Lunz, aim at supporting sustainable resource development, ecosystem protection, providing a safe and healthy working environment, creating an inspiring place for innovation, discovery, and to learn and teach. Stay updated about our progress, visit our website!
